GENERAL INFORMATION.

LOCATION.

Westfield College is located in the beautiful, healthful and growing town of Westfield, Clark County, Illinois. It is situated on the Olney Division of the I. D. & W. Railroad. This road connects Westfield with Hume, Olney, and intermediate towns. Students coming to Westfield can make the following connections over the roads indicated at the stations named: Vandalia, at Casey on the south, at Borton Junction on the north; Big Four at Kansas; Clover Leaf at Brocton; I. D. & W. at Hume; C. & E. I. at Sidell; B. & O. S. W. at Olney.

Westfield is entirely free from saloons and other places of low resort. Its excellent moral sentiments make it an especially desirable place for the residence of students.

EXPENSES.

No other item of information is of more interest to the student than that relating to expenses. It is believed that a thorough and complete education can be obtained as cheaply here as at any college in the country. The following is a statement of the more prominent items of expense:

Tuition and incidentals for one year, \$30.00

Divided as follows—

Fall Term, 16 weeks, Tuition, \$6.00, Incidentals, \$6.00.

Winter Term, 11 weeks, Tuition, \$4.50, Incidentals, \$4.50.

Spring Term, 11 weeks, Tuition, \$4.50, Incidentals, \$4.50.

Furnished rooms, except fuel, light, and towels, 50 cents per week to each student. Table board from \$1.50 to \$2.00 per week. Books for the year, from \$5.00 to \$15.00. Incidental expenses, including coal, oil, and washing, from \$10.00 to \$20.00 per year. Board with furnished rooms in private homes, fuel and light included, for \$2.50 to \$3.00 per week. An entire year in Westfield College need not cost the student more than \$140. Many spend the year in college with a less sum and do not realize any inconvenience in so doing. Licensed preachers and children of preachers of the Church of the United Brethren in Christ will be charged one-half the regular tuition in the College Courses.

PLEASE NOTICE that any student in the College, Preparatory, or Normal work can take studies in the Business Course without extra charge; and that any

student in the Business Course can take studies in the College, Preparatory, or Normal Course without extra charge. Penmanship is free to all our students.

MORAL AND RELIGIOUS INFLUENCES.

The whole life and administration of the college are pronounced and positive in favor of Christianity. The college work opens each day, except Saturday and Sunday, with devotional exercises conducted in the chapel. All students are required to be present. There are five different Christian denominations represented in Westfield, and students are required to attend divine service once every Sunday, either in the college chapel or at one of the churches in the town. The United Brethren, Baptist, Methodist Episcopal, Free Methodist, and Radical United Brethren are represented, and students may attend where they elect. Two Christian Associations, the young men's and the young women's, are maintained by the students of the college, each holding weekly meetings. Many young people have been helped to a better life by their influence.

LITERARY SOCIETIES.

Four literary societies, the Colomentian and the Zetagathean for young men, the Cleiorhetean and the Philalethean for young women, furnish excellent training in reading, speaking, debate, and parliamentary practice. The societies have finely furnished halls and well selected libraries and are doing valuable service for their members. They meet every Friday night.

LIBRARY AND READING ROOM.

The Library contains a valuable collection of standard books, such as encyclopedias and other books of reference, histories, scientific reports, works of general literature, theology, poetry, law, and politics, to which frequent additions are being made by donations and purchase. Generous lovers of literature are asked to remember this interest by donations of money and books.

By the generosity of friends the Reading Room is supplied with daily, weekly, and monthly publications, representing various departments of current history and literature. The Library Room is open one hour daily and students are admitted to all its privileges without charge.

DEGREES AND DIPLOMAS.

The degree of Bachelor of Arts is conferred, by vote of the Board of Trustees on recommendation of the Faculty, upon all students who have satisfactorily completed any of the standard courses of study.

A diploma is given on the completion of a course in either of the adjunct departments.

Diploma fees are due one month before the annual commencement and are as follows: Master's diploma, \$5.00; Bachelor's diploma, \$5.00; Normal diplomas \$3.00; Commercial diploma, \$2.50; Shorthand diploma, \$2.50; Elocution diploma, \$2.50; Music diploma, \$2.50.

Write to the president for a catalogue.

THE COLLEGE.

The college offers the following courses of study: Classical, Philosophical Literary, College Preparatory, and Normal.

CLASSICAL COURSE.

(See Outline, page 7)

Candidates for admission to the Freshman Class are examined in the following studies:

ENGLISH—Grammar, Elementary Rhetoric, English and American Literature. An Essay of not less than seven hundred words, correct in spelling, punctuation, grammatical construction, and use of capitals, must be written in the presence of the examiner upon a subject chosen from one of the following books: The Great Stone Face, Evangeline, Snow Bound, The King of the Golden River, The Cotter's Saturday Night, The Deserted Village, The Ancient Mariner.

LATIN—Grammar; Cæsar, Books I-VI; Viri Romæ, fifteen selections; Cicero, four Orations; Vergil's Æneid, Books I-VI; Prose Composition based on Cæsar and Cicero.

GREEK—Grammar; Xenophon's Anabasis, Books I-IV; Cyropædia, Books I-IV; Prose Composition based on Anabasis.

Fair equivalents will be accepted in lieu of requirements in either Latin or Greek.

MATHEMATICS—Complete Arithmetic; Algebra through Quadratic Equations in Milne's High School Algebra, Wells' Essentials of Algebra, or an equivalent text; Plane and Solid Geometry, completed, the text equivalent to Beman and Smith's, Wells', or Wentworth's.

SCIENCE—Elementary Physics, Geography (Descriptive and Physical) Elementary Astronomy and Physiology.

HISTORY—United States History, Bible History, Civil Government, and English History.

PHILOSOPHICAL AND LITERARY COURSES.

(See Outline, page 7)

Candidates for admission to the Freshman Class are examined in the same studies as for the Classical Course, except that German Grammar, Reader, and Prose Composition, with readings as tests from Wilhelm Tell, Goethe's Iphigenie, and Erzählungen aus der Deutschen Geschichte are required instead of the Greek.

PREPARATORY AND NORMAL COURSES.

(See Outline, page 8.)

Students must have a good common school education for admission either to the Preparatory or the Normal Course. Classes will be organized each term in Arithmetic, Grammar, United States History, and Geography for the benefit of those who are not prepared to enter these courses; also in Reading and Orthography when needed.

WORK DONE ELSEWHERE.

Real equivalents for studies required are received at the discretion of the Faculty.

Students who seek credit for work done in high schools and academies must submit certificates stating texts or portions of texts used, and the time spent in pursuing the study. Candidates for advanced standing coming from any other institution of equal grade will receive due credit for work done as testified by the faculty of such school. Students will not be allowed to take studies covering over twenty periods per week without the permission of the Faculty.

Students coming from other institutions should present certificates of honorable dismissal.

PEDAGOGICS.

This is a regular department of the college. We recognize the demand for trained teachers, and the fact that many who stand waiting to enter the ranks of teachers in our common and graded schools cannot complete a full college course. Our present Normal Course is the result of long experience and of a careful comparison of the courses offered in the best state Normal Schools. We submit it to the young teachers of our territory for their careful inspection. We offer them a Normal Course unexcelled, amid the inspirations and helpful surroundings of college life, and under teachers thoroughly prepared to do the very best for each pupil and in complete sympathy with the aims and struggles of the earnest student preparing for work as a teacher.

The professional instruction is of the highest order, and is the result not of theory alone, but of an experience of many years in public school and college teaching.

TEXT-BOOKS.

Text-books are on sale at the college and students are given the advantage of all discounts. They are advised not to purchase books before arriving in Westfield, as the list, here given, of books used or adopted for use, is subject to revision.

ADJUNCT DEPARTMENTS.

THE BUSINESS COURSE can be completed in one year, or in less time by one who has a fair education. It gives a thorough training in the science of accounts, in commercial law and in business practice. The most modern and approved methods are used, and the department is strictly up-to-date. The tuition is only \$30.00 for the year, which entitles the student to take studies in the college if his time permits.

THE SHORTHAND COURSE gives thorough preparation in shorthand and typewriting. The Eclectic system is used, and the student must be able to write 140 words per minute before graduation. Tuition, fall term, \$20; winter and spring, each \$13.75.

THE MUSIC DEPARTMENT gives courses in Piano, Organ, String Instruments, Voice Culture, Vocal Music and Harmony. The course is thorough and the instruction first class. Tuition, \$12 for term of 20 lessons.

Students in Music will do well to take studies in the college in connection with their music course. The advantages offered should bring a large number here for this delightful study.

ELOCUTION is taught by an experienced teacher. The course is from one to two years, according to advancement and proficiency of pupils. Tuition, \$10 for term of 20 lessons.
